Sub vs Supra Laryngeal

Sublaryngeal Vocal Tract

Moving air around

Option 1: The lungs (pulmonic)

- On the out-breath: “egressive”
- On the in-breath: “ingressive”

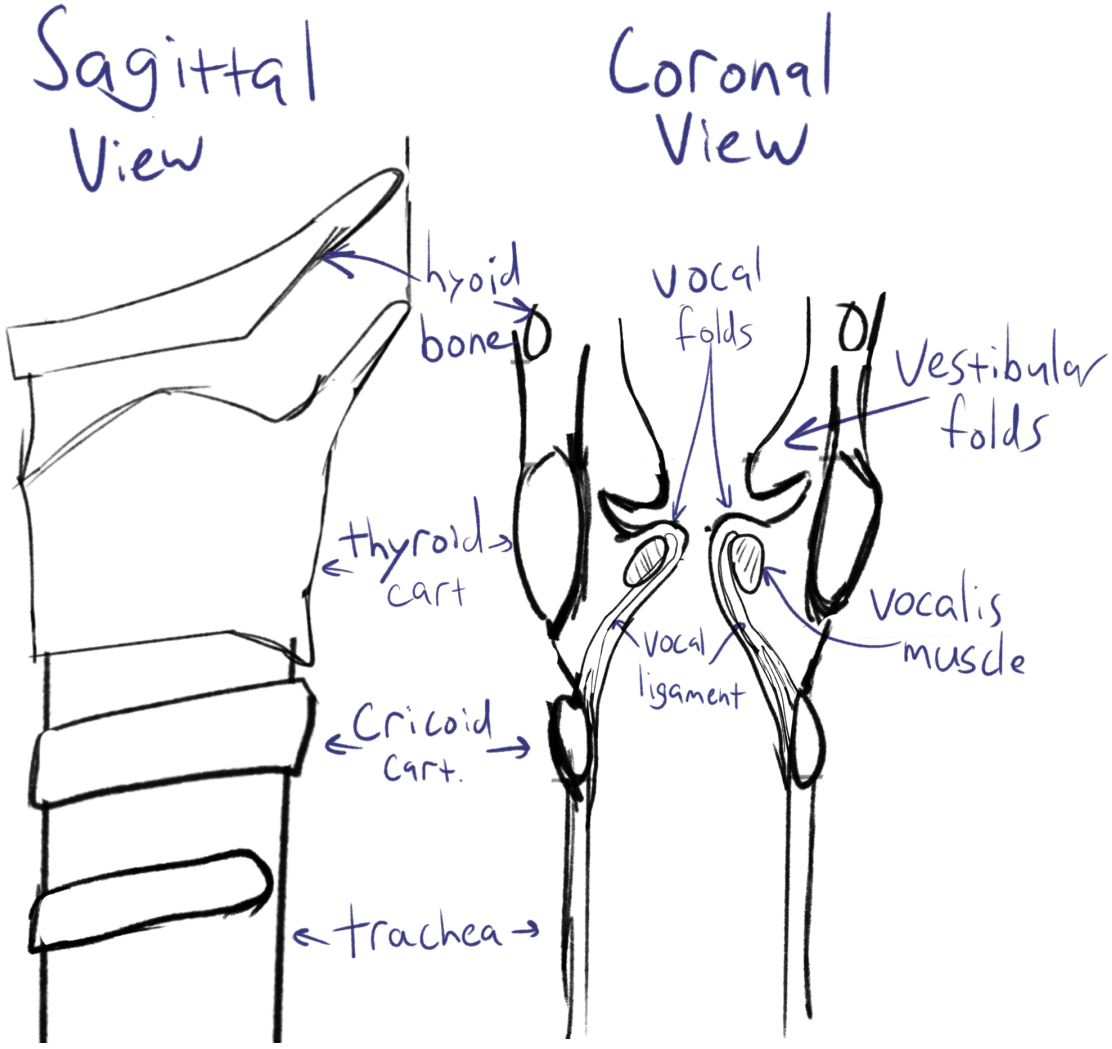

Moving air around

Ingressive:

~~[…] no language uses the pulmonic *ingressive* airstream in any systematic way.~~

Many languages, including some Englishes, use ingressive speech for “backchannelling”.

Larynx

Larynx and the voice
