Lin300 - Speech Sounds

Dr. Josef Fruehwald

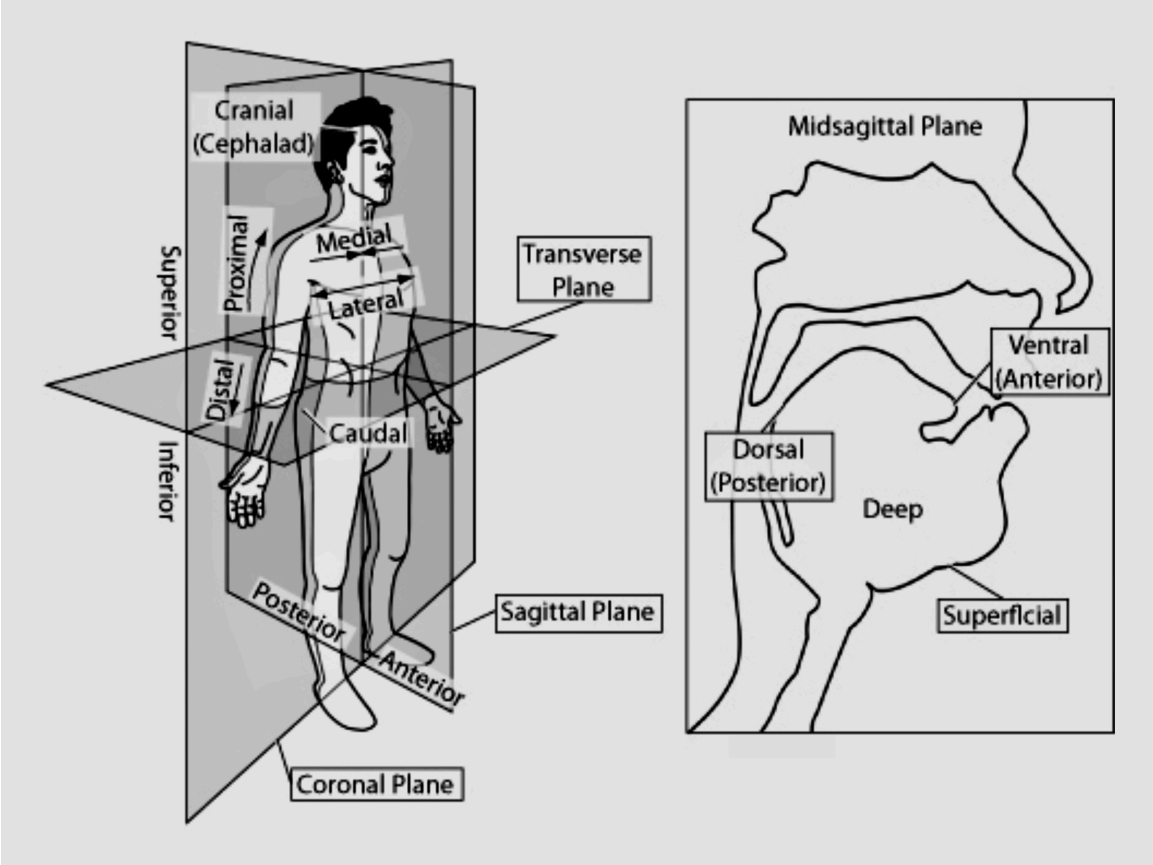

2026-08-25

The plan for today

- Names & Attendance
- Course “Flightplan”
- Syllabus

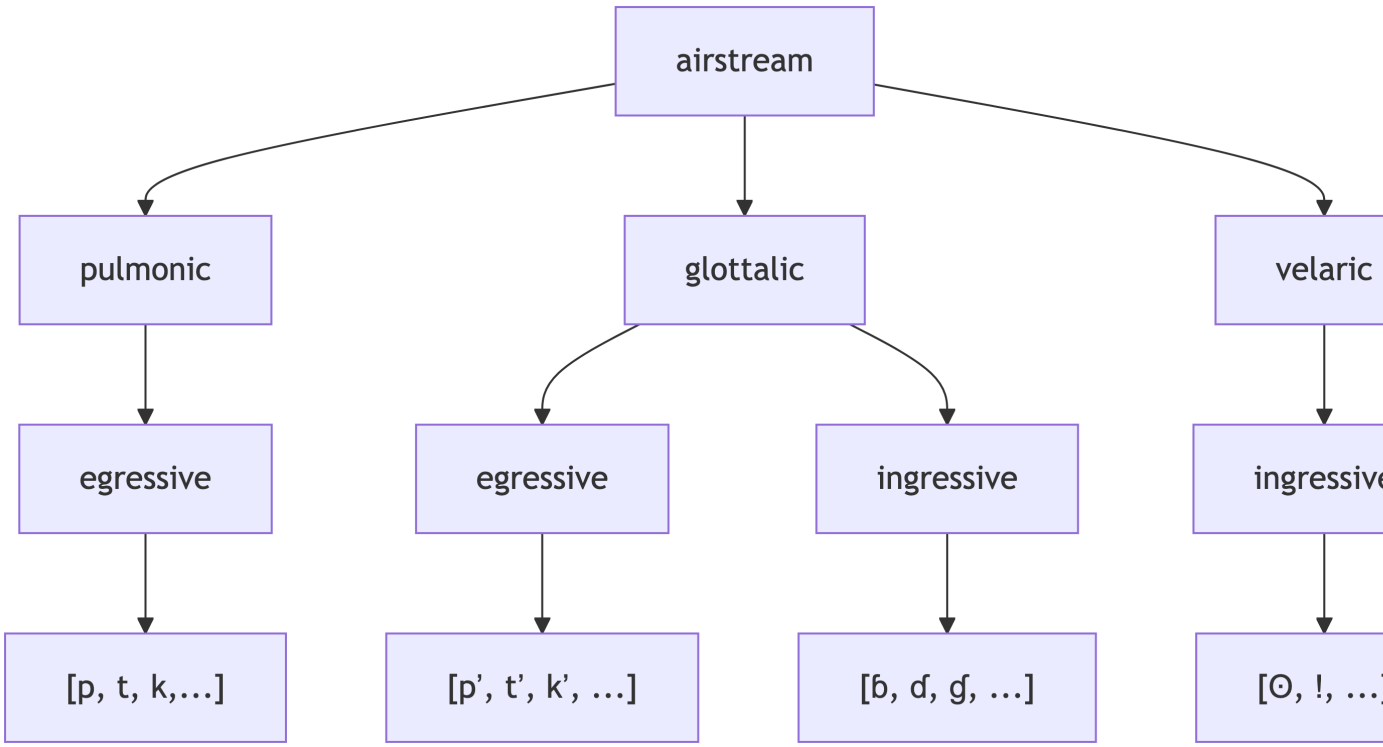

Speech Sounds

We make them with our bodies.

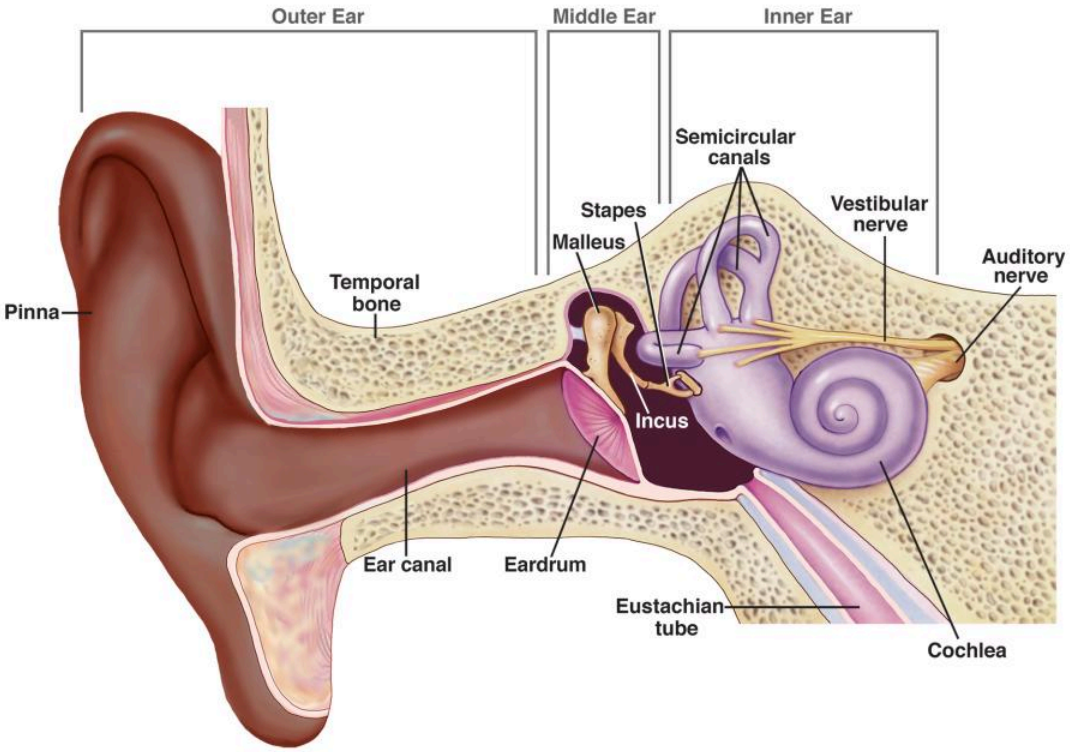

Speech Sounds

We can cross-categorize them many ways

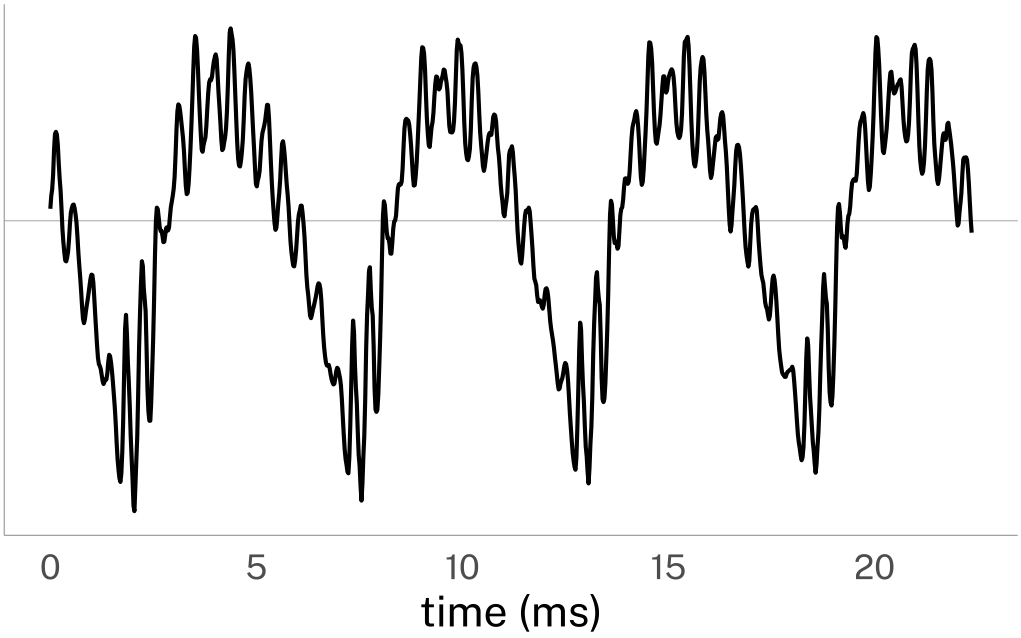

Speech Sounds

We hear them

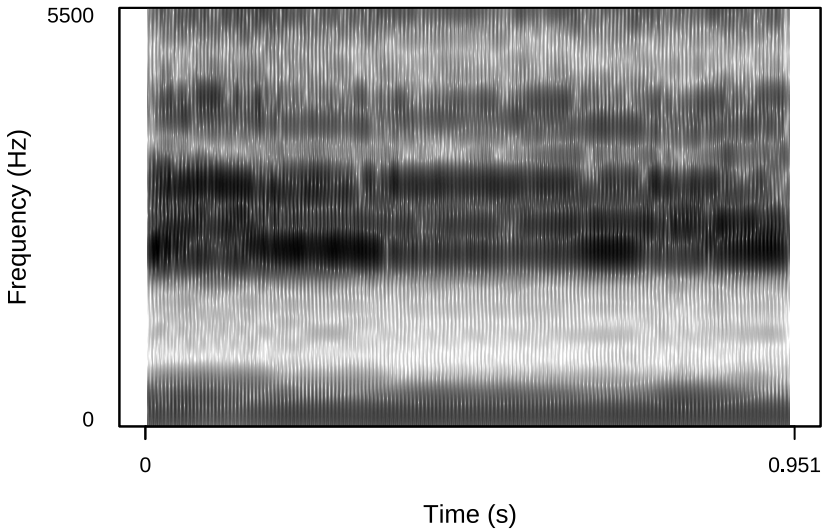

Speech Sounds

We can record them

Speech Sounds

They have acoustic properties

Speech Sounds

We cognitively organize and distribute them.

$$\begin{bmatrix} -\text{cont} \\ -\text{obs} \\ -\text{voice} \end{bmatrix} \rightarrow [+\text{spread glottis}] / \ \# \ ____ \ [+\text{stress}]$$

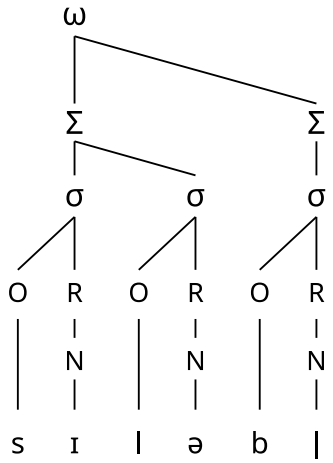

Speech Sounds

We cognitively organize and distribute them

/ɛnpiːɑɹ/	MAX	DEP	AGREE(PL)	IDENT
[ɛnpiːɑɹ]			*!	
[ɛnəpiːɑɹ]		*!		
☞ [ɛmpiːɑɹ]				*
[ɛŋpiːɑɹ]			*!	*
[ɛpiːɑɹ]	*!			

Speech Sounds

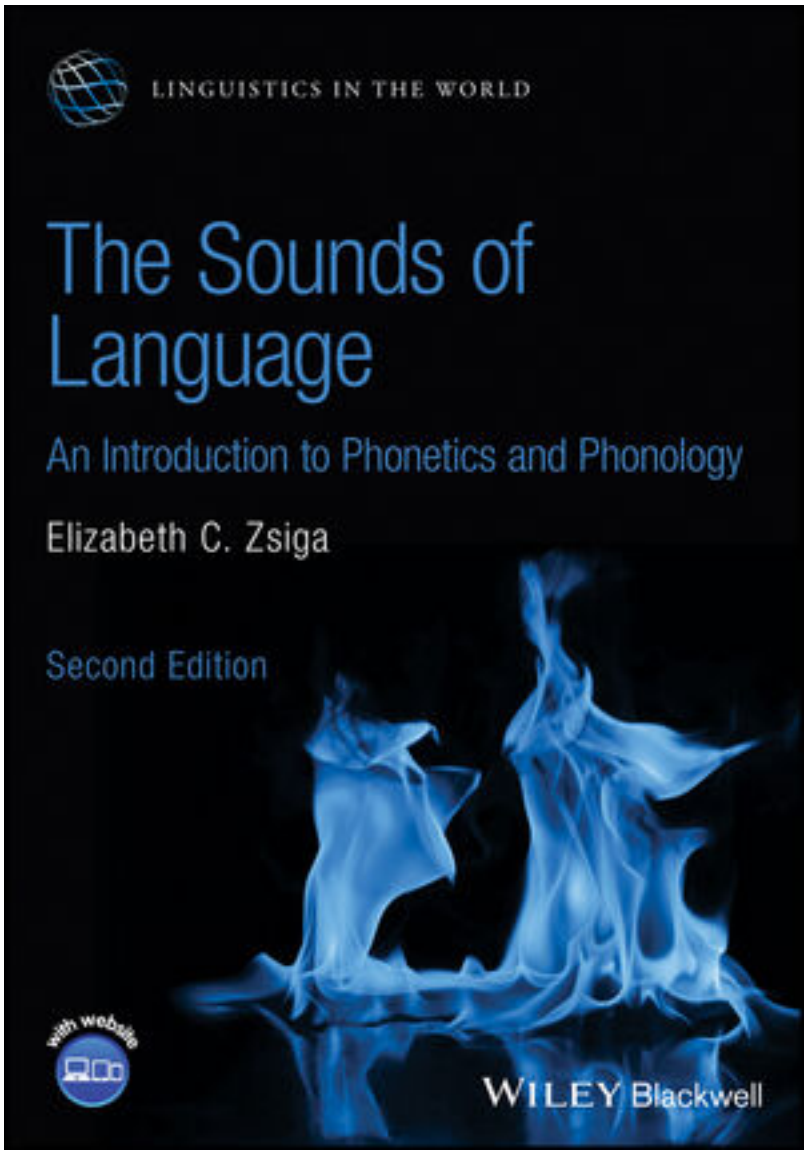

We cognitively organize and distribute them

Flight Plan

- Speech Anatomy & Articulatory Classifications
- Speech Perception & Acoustics
- Phonological Contrast & Alternation
- Phonological Features & Rules
- Phonological Constraints
- Prosodic Structure

The Textbook

Zsiga, Elizabeth C (2024) *The Sounds of Language*, Wiley-Blackwell ISBN: 978-1-119-87850-6

Course Evaluation

- Weekly comprehension quizzes
- Language Puzzles
- IPA transcription exercises
- In-class midterm (Oct 6)

- In-person final exam (Dec 17)
- Participation

Lecture Slides

The lecture slides, in general, serve to *support* the in-class discussion, and to augment your own notes. They won't be overly wordy, and may not make sense outside of the classroom context.
