Moving air around

Option 1: The lungs (pulmonic)

- On the out-breath: “egressive”
- On the in-breath: “ingressive”

Moving air around

Ingressive:

~~[...] no language uses the pulmonic ingressive airstream in any systematic way.~~

Many languages, including some Englishes, use ingressive speech for “backchanneling”.

Terminology

- “Sublaryngeal”: below the larynx
- “Supralaryngeal”: above the larynx
